

# AIR POLLUTION POLICY

Felix O'Hare Ltd is committed to ensuring that our activities on site will not in any way cause harm or have a detrimental effect to the neighbouring environment and air ways.

Felix O'Hare Ltd will actively support the protection of the environment and conserving natural resources where we can.

In particular employees must ensure:

When carrying out dusty works on site we will make efforts to limit the spread of dust.

Use Dust sheets throughout occupied premises to prevent spread of dust where relevant.

When carrying out drilling works or other works on site, we will ensure that works are dampened down where appropriate.

Skips or other dusty materials stored on site must be covered over with skip covers to prevent spread of dust.

Road sweeping with dust suppression devices will be used to prevent spread of dust onto roadways.

We are committed to putting this policy into practice in our day-to-day work.
